## Profile

Fullstack JavaScript Developer with 3.5+ years of experience building web applications with TypeScript, React/Next.js, Node.js and Laravel. Strong in frontend development, REST API integrations, authentication flows, dashboard interfaces, reusable component systems and production debugging. Experienced in building responsive UI, connecting frontend applications with backend services and improving application performance.

## Professional Experience

### Middle Fullstack Developer, Wandry 07/2025 – Present

- Owned and delivered fullstack product features using React, TypeScript, Node.js and Laravel, covering frontend implementation, API integration, backend logic and production fixes.
- Built responsive dashboard screens, reusable UI components, form flows and API-connected frontend modules.
- Created and integrated REST API endpoints, authentication flows, CRUD logic and admin-facing functionality.
- Improved frontend performance by optimizing rendering behavior, code splitting and Core Web Vitals.
- Worked with PostgreSQL/MySQL databases, optimized queries and improved data flow between frontend and backend.
- Reviewed pull requests, mentored junior developers and improved team code quality through shared standards, refactoring suggestions and testing practices.
- Integrated AI-assisted features using OpenAI/Gemini APIs where they supported product workflows.

### Part-time Frontend Developer, NDA SAAS Client 04/2025 – 02/2026

- Developed production frontend features using React, TypeScript, Next.js and REST APIs.
- Built dashboard screens, reusable UI components, form flows and API-connected frontend modules.
- Managed server state, validation, loading/error states and complex user interactions.
- Fixed performance and UX issues, reducing unnecessary re-renders and improving page responsiveness.

### Junior Fullstack Developer, Fernir 01/2024 – 07/2025

- Built and maintained web application features using React, TypeScript, Vue.js, Node.js and Laravel.
- Implemented responsive UI screens, reusable components, client-side state management and API-connected workflows.
- Developed REST API integrations, CRUD flows, authentication-related logic and admin-facing functionality.
- Improved database structure and SQL queries for client-facing features.
- Configured GitLab CI/CD pipelines and supported deployment workflows.

## Junior Frontend Developer, Aura Digital

2023 – 2024

- Built responsive landing pages, dashboard screens and reusable UI components using JavaScript, React and Tailwind CSS.
- Integrated frontend pages with REST APIs and handled loading, validation and error states.
- Improved layout consistency, cross-browser behavior and mobile responsiveness across client projects.

## Skills

### Technical Skills

- **Frontend:** JavaScript, TypeScript, React, Next.js, Vue.js, Nuxt.js, HTML5, CSS3, Tailwind CSS, shadcn/ui, Radix UI, Redux Toolkit, Zustand, Pinia, TanStack Query, React Hook Form, Zod, Responsive Design, Frontend Architecture
- **Backend:** Node.js, Express.js, Laravel, REST APIs, GraphQL, Authentication, JWT, WebSocket, API Integration
- **Databases:** PostgreSQL, MySQL, MongoDB, Prisma, Redis, Query Optimization
- **Testing:** Playwright, Jest, Vitest, React Testing Library, Unit Testing, E2E Testing
- **DevOps:** Docker, GitHub Actions, GitLab CI, CI/CD, Nginx, Deployment Workflows
- **Additional:** C#, .NET, OpenAI API, Gemini API, n8n, AI-assisted Development
- **Tools:** Git, Postman, Swagger, Jira, Cursor

### Engineering Practices

- **Code Review:** Reviewed pull requests, suggested refactoring improvements and helped maintain shared code standards.
- **Mentoring:** Supported junior developers with implementation guidance, debugging and feature delivery.
- **Ownership:** Led features from requirements clarification to implementation, testing and deployment support.

## Education

National University "Odesa Polytechnic",  
Master of Computer Science

2024 – Present

IT STEP Computer Academy, Bachelor's degree

09/2019 – 07/2024 | Odesa, Ukraine
