👤 Profile

Results-driven Middle Frontend Developer with 3+ years of experience specializing in building high-performance web applications using **React (Next.js)** and **Vue (Nuxt.js)**. Expert in TypeScript and modern state management, with a proven track record of optimizing Core Web Vitals and architecting scalable UI systems. Strong advocate for DX (Developer Experience) and TDD, proficient in bridging the gap between frontend and backend via Node.js and Inertia.js to deliver seamless, accessible, and user-centric products.

🧠 Skills

Technical Skills

- **Frontend:** JavaScript (ES6+), TypeScript, React, Next.js, Vue.js, Nuxt.js, Angular, Inertia.js.
- **State Management:** Redux Toolkit, Zustand, Pinia, Tanstack Query (React Query).
- **Styling & UI:** Tailwind CSS, SCSS, Framer Motion, shadcn/ui, Radix UI, Storybook.
- **Backend & DB:** Node.js, Express, Laravel (Basic), Prisma, Zod, MongoDB, PostgreSQL, REST APIs.
- **Testing & Tooling:** Vitest, Playwright, Jest, React Testing Library, Git, Docker, CI/CD (GitLab/GitHub).
- **Forms & Validation:** React Hook Form, Zod, Yup.

Soft Skills

- **Problem Solving:** Analytical approach to complex technical challenges.
- **Communication:** Effective collaboration with cross-functional teams and stakeholders.
- **Adaptability:** Fast learner of new frameworks and changing project requirements.
- **Ownership:** Ability to work independently and take full responsibility for feature delivery.

📁 Professional Experience

Middle Frontend Developer, Wandry

07/2025 – Present

- **Architected and maintained** high-performance cross-platform web applications using React.
- **Optimized application performance** by implementing code splitting, lazy loading, and component-level caching, resulting in a **20% improvement in Core Web Vitals**.
- **Streamlined data flow** by integrating complex RESTful APIs with Node.js/Express, reducing frontend-backend latency.
- **Mentored junior developers** and maintained high code standards through rigorous code reviews and enforcing ESLint/Prettier configurations.

Junior Frontend Developer, Fernir

01/2024 – 07/2025

- **Developed secure Auth systems** using JWT and OAuth2 (including refresh token logic), increasing application security.
- **Automated deployment processes** by configuring CI/CD pipelines in GitLab, reducing manual deployment time by 40%.
- **Boosted reliability** by introducing unit and E2E testing with Vitest and Playwright, achieving **85% test coverage** on core features.
- **Successfully delivered 3+** client-facing projects from scratch, ensuring 100% responsiveness and pixel-perfect UI.

Freelance Software Engineer

2023 – 2024

- **Delivered custom UI features** and components for various clients, focusing on accessibility (A11y) and SEO best practices.
- **Refactored legacy codebases** using Tailwind CSS and modern React hooks, improving maintainability and site speed.

🎓 Education

National University "Odesa Polytechnic",
Master of Computer Science

2024 – Present

IT STEP Computer Academy, Bachelor's degree

09/2019 – 07/2024 | Odesa, Ukraine
